

The ideal compromise for better comfort

Indoor use: Roller shades, skylight shades, sliding panels **Outdoor use:** Exterior roller shades, skylight shades

Perfect balance

Soltis Harmony 88 provides the ideal openess factor to fully enjoy outdoor views while blocking up to 93% of solar contributions.

Design and style

An even weave pattern, a unique textured appearance and a range of 17 colors to coordinate with your interior.

Long-lasting and sustainable

The Précontraint technology gives our materials an exceptionally long life. They are 100% recyclable at the end of their service life thanks to the Texyloop process.

Soltis Harmony 88 helps maintain good indoor air quality, as proven by its Greencard Gold certification.

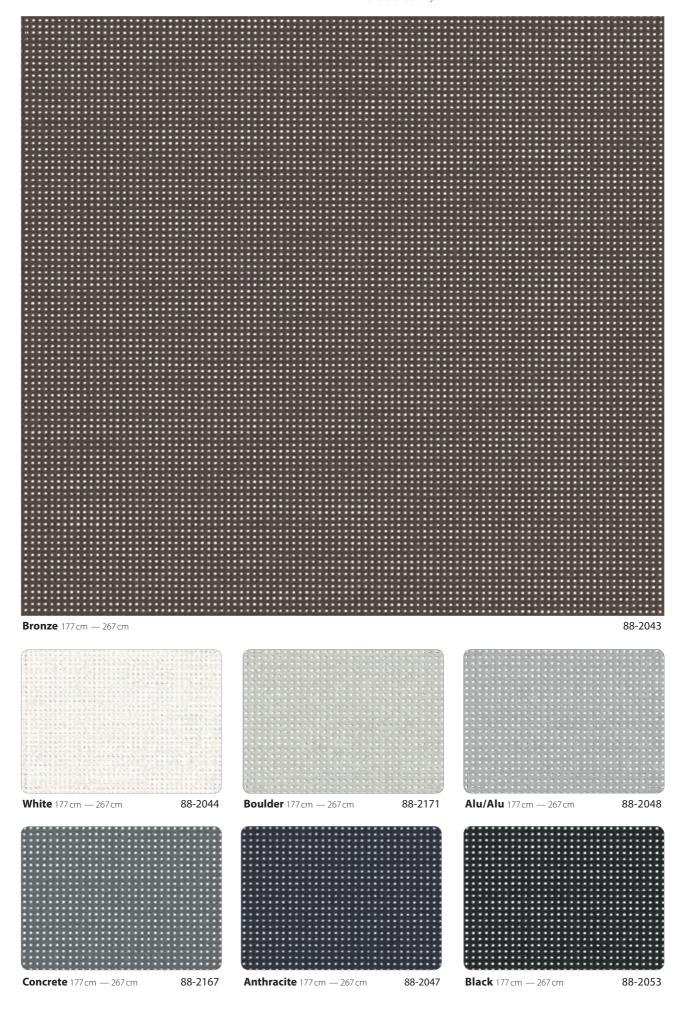

The right balance so you can enjoy only the best of the sun

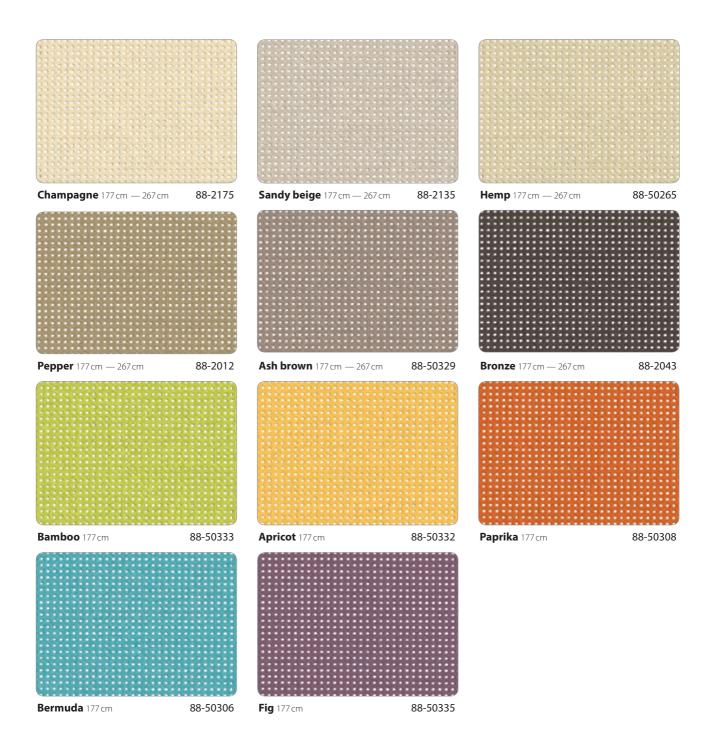

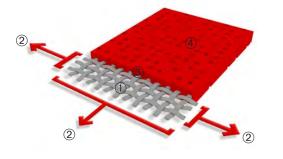

The colours and textures represented in this document are provided as a reference only.

Exclusive Précontraint[®] technology

Patented worldwide, the Précontraint® Serge Ferrari technology involves keeping the composite under tension throughout the manufacturing cycle. It gives our materials exceptional performance that enable them to surpass market standards in terms of dimensional stability, mechanical strength, coating thickness and flatness.

High-tenacity polyester micro-yarn ①	Superior elongation and tear resistance
A coating with fabrics under bi-axial constant tension in both warp and weft directions	No deformation during processing and use
Greater coating at the top of the yarns and a dirt resistant surface treatment	Superior aesthetic and mechanical durability
Exceptional flatness and thinness	Smooth finish easy to clean, space saving, easy rolling
